OBJECTIVE

Currently pursuing B.Tech (2nd year) in Computer Science Engineering with a specialization in Artificial Intelligence and Machine Learning (AIML) at Chandigarh University. Strong foundation in C, Python, Data Structures and Algorithms, web development (HTML, CSS, REST APIs), and Machine Learning, with hands-on project experience in robotics and IoT-based systems using Arduino and ESP32.

EDUCATION

B.Tech – Computer Science Engineering (AIML) | Chandigarh University | CGPA: 7.43 | 2026

Pre-University Course (MPC) | Sri Chaitanya Junior College, Vijayawada | Percentage: 92.9% | 2022–2024

SSC | Jawahar Navodaya Vidyalaya, Lepakshi (Puttaparthi) | Percentage: 86.5% | 2017–2021

SKILLS

Technical Skills

- **Programming Languages & Concepts:** C, Python, Object-Oriented Programming (OOP)
- **Core CS:** Data Structures and Algorithms
- **Web Technologies:** HTML, CSS, REST APIs
- **ML & Data Analysis:** NumPy, Pandas, Matplotlib
- **Backend Concepts:** API Integration, CLI Applications, Logging, Error Handling
- **Tools:** VS Code, GitHub, Jupyter Notebook, Google Colab

PROJECTS

- **Military Equipment Detector – GitHub**

AI-based system to detect and classify military equipment using image recognition and ML models; improved accuracy using multi-source data.

- **Weather App (CLI) – GitHub**

Built a Python CLI weather app using the OpenWeatherMap API for real-time city-wise weather information.

- **Web Scraper – GitHub**

Built a Python web scraper using Requests and BeautifulSoup to extract clean main text from web pages.

- **Flask To-Do List App – GitHub**

Built a Flask-based To-Do application with CRUD functionality and SQLite database integration using HTML and CSS.

EXPERIENCE (INTERNSHIPS)

- **C++ Programming Intern –** Brainwave Matrix Solutions (Remote) | Sep–Oct 2025

Worked on C++ coding, debugging, and basic optimization tasks.

- **Python Developer Intern –** IndoLike (Remote) | Aug–Sep 2025

Completed Python programming tasks involving basic backend logic.

- **Junior Coding Intern –** Internshala (Remote) | Mar–May 2025

Assisted users with coding-related queries and basic technical support.

CERTIFICATIONS

- Career Essentials in Software Development – Microsoft
- Career Essentials in Generative AI – Microsoft
- Go (Basic) – HackerRank
- 4★ (Silver Badge) in C++ and C – HackerRank
- Google Play Academy – App & Play Store Fundamentals
- Software Engineer Intern (Role Certification) – HackerRank
